

Fressingfield Community Gardeners

Fressingfield Community Gardeners meets in the Sports & Social Club premises on the third Monday of each month - unless we have a visit to a garden, which we do 2 to 3 per year.

Over the last year, we have had a lot of talks from speakers of all kinds, on a wide range of subjects all related to gardening. This includes talks on propagation, bees and pollination, conifers, companion planting, natural dyes from local plants, salvias, clematis, foraging. For the rest of this year we have a number of talks, covering butterflies, attracting birds and other wildlife to your garden, cacti and other succulents and roses.

We also do group garden visits, ranging from big RHS and National Trust gardens to local boutique and niche gardens.

Last but not least, this year we are running, in partnership with St Peter & St Paul's Church in Fressingfield, a Garden Festival and open gardens, on the weekend of 17/18 June. We will have 23 gardens open, a sculpture and a scarecrow trail, refreshments and a rotating series of market stalls throughout the weekend.

New members are always welcome, so please contact Tony Newton (tony.newton@btinternet.com) for more information.
